Dear Members

We have now opened our Information Centre in Windsor to keep local people informed of our plans for the LEGO Park as they develop

The photo shows the Centre with the big site model. This does not show much yet but, as our ideas are finalised and receive Planning permission from the Local Authority, we will add more details to the model.

Some people come in and say "Opening at Easter 1996, Goodness, why will it take so long?" Our feeling is just the opposite, wondering how we can complete such a huge project so quickly!

We do not start work on the ground until next January. That is partly to give us time to prepare our plans and get Planning permission, and partly to give time for the present administrators of what was the Windsor Safari Park time to find good homes for all the 600 animals. Some 400 have already gone to other zoos and safari parks (none to circuses) and are settling-in happily in their new homes, we are told.

Hopefully, by the Autumn edition of Bricks 'n Pieces we will be able to give you more details of this very exciting project.

nter the magical land of wizards and dragons with the new sets, in our LEGO SYSTEM Castle range. The sets include a large mountain top Castle, cave and three dwellings, and a Dragon inspired catapult, all with brand new features to add to your building fun. Get to know exciting new characters such as Merlin the Wizard, complete with luminous wand, Ogwen the Dragon, and the new Dragon Knights. These sets will appear in your shops from

August.

DRAGONS

Here is a short story set in the Magic Kingdom of

The children ran up the hill, as fast as they could,

to Castle Carrey (see "Merlin Merlin, there's a strange animal in the woods." He's all green and "that's all green and "that's only Ogwen, my shouter to help me had been my been and the standard of the st "Ha ha ho" chuchen he's come to help me look after new friendly Dragon, and the state of the state of you. Don't worry we'll soon have him back home, all of you can say hello to him, he likes to make all of you. Don't want and then you can say hello to him, he likes to make and then you can say me and then you can say me make the specially still chuckling, Merlin wandered off to find new friends: Sun and asked him to take the specially a Dragon Knight and a Dragon Knight and (set 6056), find Ogwen and take him home to his mountain cave.

Hurrying back to the children, Merlin invited them Hurrying back to the Castle "Don't forget to search the knights to to have a look around the castle, and ask the Knights if you r the secret exit in the Casac and the Knights of the secret exit in the Casac and the Knights of the can have a look at the Dragon's Head above the door.

We can throw rocks and boulders

We can throw rocks and boulders through its mouth to ward off any attacks from the Wolf people

"Well what did you think of our castle?" Merlin, "now let's go and meet Ogwen," With that he turned to a page in his spell book, muttered a few words, waved his magic wand and hey presto, suddenly words all transported to Ogwen's Cave (see So. were all transported to Ogwen's Cave (set 6076). By this time Ogwen had returned with two of the dragon Knights, and he was very excited to meet the children. "Oh what fun to meet to de come and see my cave. I've

friends, come and see my cave, I've got a secret exit too, then I'll show you Merlin's workshop (set 6048). Did you know that I can a Merlin's won.

Merlin is a magician, did you know that I can fly, did

that I guard the treasure, and did did. Merlin is a mag-you know that I guard the treasure, and did did did Ogwen" laughed Merlin "let the child..."

catch their breath before you go on and on."

After exploring with Ogwen the children returned to After exploring with the front of Merlin's workshop, where he was busy working the front of Merlin's workshop, where he was busy working the front of Merlin's workshop working the first time you went he on very secret spells. "Now I think it's time you went home on very secret spens. The say the magic spell and we'll have the magic spell and we'll have for tea" said Merun, you home in no time. Now where did I put my spell have have you seen it?" There was a great silence. you home in no time. Who was a great silence and then Ogwen, have you seen a great silence and the everybody looked towards Ogwen, who was trying des. everybody looked towards who was trying deeperately to hide something behind his tail. Finally he said perately to hide sometimes and the said perately to hide sometimes are finally he said accident, I only meant to show them my flery a was an accident, I only meant to show them my flery flames, it it is suddenly the front of your spell book was an was an accident, rom, mem my flery mand then suddenly the front of your spell book was all hed. I'm so, so sorry" he wailed Big dragon from and then suddenly use and spell book was all scorched. I'm so, so sorry" he wailed. Big dragon tears began

I to the ground.

"Now stop all that" said Merlin "you'll cause a flood!

"Now it to do now? I've got to visit the King." "Now stop an that "Now stop an that "You'll cause a flood well what am I to do now? I've got to visit the King and so I need to have a new and well what am I to up how spells, and so I need to have a new front show him my new spens, and the looked to have a new front cover for my spell book" He looked so worried that both cover for my spen book
the children cried out "We'll help you Merlin, when we'll ask all our friends to design a cover for you." the children cried out we are pyou merlin, when we'll ask all our friends to design a cover for your seet and then we'll bring them all to you and you can ot home we'll ask all our name to make a cover for your set book, and then we'll bring them all to you and you can choose thest one". "What a good idea" exclaimed Merlin "Your set one". book, and then we'll oring on the book and then we'll oring or exclaimed work and I promise that the ten best deal in the best one". "What a go the best one". "What a go that the ten best designs at a prize. How about a miniature version of Castle Co. sure that will work, and possible the sure that will work, and possible the sure that will get a prize. How about a miniature version of castle castle carrege could build themselves (set 6082). Do you the will get a prize. now more than they could build themselves (set 6082). Do you think that they could like that?" The children nodded quickly.

would like that? The tank arounce quickly.

Merlin took both of them home, and they ran to tell Merlin took bour or and they ran to tell their mum about their big adventure, and all about the next day found the problems with Merlin's Spell book. The next day found the painting new dear problems with Mernus open and all their friends, busy drawing, and painting new designs

for the cover.

Would you like to help the children design a new from for Merlin's spell book? Just send your down cover for Merlin's spell book? Just send your design a new from ear than 29 x 21 cms) before August 20th, cover for Merun's spending Just send your design (no larger than 29 x 21 cms) before August 20th 1993 to.

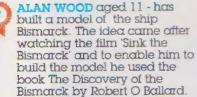

engines. It looks ready for take

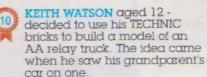

his sister

DAVID BIRCHALL aged 11 -likes racing cars and reading about them. His model has an engine, suspension and a gear stick. It really looks quite impressive.

JORDAN PENMAM-GILLAM built a model of a cow for a local show where all the farmers in the area take their cattle.

ANTHONY BAUGH aged 8 - is pictured here with his model of a ferry. He built it after a trip on one to France. It took him over a day to build but he feels it was well worth it.

NATASHA RATCLIFFE aged 11 built this model of a hot air balloon when she was 9 years of age. Well done!

The Exploratory, Temple Meads, Bristol July 24 - October 31

Auto 2000 is an exhibition of futuristic car designs for the year 2000 and beyond.

This car 'Beggar' was designed by Sebastian Beck (age 20) from

Germany, it seats six people, three facing forward and three facing backwards.

You can see these futuristic cars

at Bristol's Exploratory from 24th July until 31st October. As well as the cars there will be a LEGO play area and the Exploratory's other 'hands on' exhibits. Club members will get free admission by showing their valid membership card when accompanied

> admission price. Admission for non-

by an adult paying full

Adult £3.75

members will cost:

€2.50 Children

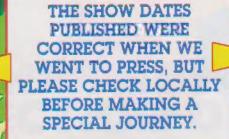

July 28 - September 4

LEGO Club members in the north east will have a chance to see the LEGO Safari show in Fenwick department store, Newcastle this summer.

The Safari show has 22 detailed models of wild animals set in their natural surroundings and a large LEGO play area all to be seen in the Fenwick toy depart. ment from July 28th until September 4th during normal shopping hours.

Entry is free.

LEGO models show scenes from a Pirate life with buttons to activate the models, bricks to build with, and a free to enter competition. The show is open during normal shopping hours but not Sundays, Free Entry

Thistle Centre, Stirling until 10th July

Almondvale Centre, Livingstone July 17 - 31

> Saddlers Centre, Walsall August 7 - 21

Ards Centre, Newtownards August 28 - September 11

Birchwood Mall, Warrington September 25 - October 9

The Fun Show is based on an old fashioned Fun Fair with models to see, bricks to build with and a free competition for 5-

12 year olds. The show is open during shopping hours but not Sundays. Free Entry.

Westgate Centre, Stevenage July 9 - 24

Broadway Centre, Bexley Heath July 30 - August 14

Swanwalk Centre, Horsham August 20 - September 4

Dolphin Centre, Poole September 10 - 25

> The Stand, Bootle October 1 - 16

WALL

We are unable to print all the photos you send in, so we have decided to have a Wall of Fame for those members who also deserve a special mention.

We would like to say a big well done, to all the other members who have sent in photos of their models. We are only sorry we cannot print them all.

FOR FUN

Try these for fun with your calculator - enter the numbers then turn your calculator upside down to see amazing results

15469 x 5 = Found on a seashore

52043 + 71 = A Fish

44 x 70 = A musical instrument

6999 + 335 = A part of a shoe

637 ÷ 1000 = A well known "brick"

Do you know any others?

When we built the letters into the tower we used a plan which our model builders

drew up for us. You could use this idea to plan a picture or mosaic, using squared

> paper with each square representing a one stud brick and sketch your design out first, then follow it as you build.

Here is a face which we drew onto squared paper then built from the plan.

RENEWAL REMINDER INFORMATION NOTIC

Many of you would normally expect to have received your Membership Renewal form with this edition of Bricks in Pieces. But don't worry!

After a very long and valued service, we have finally let our old computer system go into retirement. The new system that replaces it is very clever, and lets us know each month, which of our members we need to write and remind about renewing their Club Membership. Smart

you. You renewal reminder will be coming to don't you think? you nearer to your membership expiry date. Looking forward to having you all as Senior members in the great LEGO Club, where building with LEGO bricks can mean so much more.

take a pencil to bed? To draw the curtains.

Simon Steadman

What did the barman say when the ghost asked for a drink? We don't serve spirits

Tony Robson

If there is a class full of sweets what do you call the brainy one?

A smartie Robert Edgson

Why do we plant bulbs?

So the worms can see where they are going.

Jonathan Gowdy

Two super new realistic Model Team sets will be in the shops from August. Set 5581 Magic Flash is a superb, fully customised, mutiterrain vehicle in very sophisticated black, with distinctive red and orange stripe flashes. It pulls it's own twin wheeled trailer complete with matching speedboat. Just imagine the admiring looks as this combination drives through the towns on it's way to the coast!

Continuing with the boat theme, set 5521 Sea Jet is a twin engined powerboat in patriotic red, blue and white. The model has working rudders and propellers, and the engine tilts, just as it would in a full size boat. Can't you just see the foam spray as this boat zips across the waves. Great building fun, and what fabulous models to display. Our Model Team range goes from strength to strength.
